

A. GENERAL PARAMETERS

1. Definition

This Technical Bulletin contains instructions for the installation and configuration of Windows System Printers for use in sending plot files via *Plotworks for Windows* to A&E.

B. PROCEDURE

1. Installing on Windows 9x

This device driver can be used for creating both raster and/or vector plots in both color or black and white.

- a. Copy the “.exe” file provided to you by A&E to a temporary folder of your choice.
- b. Extract the files (by double-clicking) into the same folder.
- c. Click the **Start** button, scroll up to **Settings** and select **Printers**.
- d. Double click **Add Printer** wizard and click **Next**.
- e. When prompted for **Local/Network Printer**, select **Local** and click **Next**.
- f. In the **Manufactures/Printers** window, click **Have Disk** and click **Browse**.
- g. Navigate to the directory to which the above files were extracted and select **Designjt.inf**.
- h. Click **OK** in the **Install from Disk** window.
- i. Now select the ***HP DesignJet 650C (C2859B)** and click **Next**.
- j. At the available ports window, select **Ole to ADI** and click **Next**.
- k. Finally, type in the following for the description of the plotter driver you are installing and click **Next**:

A&E HP650C (C2859B) (optimized)

2. Installing in Windows NT 4.0

Use these drivers as follows:

The **HP DesignJet 650C (C2859B)** raster and/or vector plots in color.

The **HP DesignJet 600 E A/O** raster and/or vector plots in b&w.

- a. Copy the “.exe” file provided to you by A&E to a temporary folder of your choice.
- b. Extract the files (by double clicking) into the same folder.
- c. Click the **Start** button, scroll up to **Settings** and select **Printers**.
- d. Double click **Add Printer** wizard and click **Next**.
- e. When prompted, select **My Computer**.
- f. In the **Available Ports** window, select **Ole to ADI**.
- g. Click **Have Disk** in the **Manufacturers/Printers** window.
- h. Navigate to the directory to which the above files were extracted and select **Oemsetup** and click **Open**.
- i. Click **OK** in the **Install from Disk** window.
- j. Now select the printer best suited for your needs and click **Next**.

Windows 9x/NT 4.0 System Printer Installation
(for use with AutoCAD R14 & 2000)

PLOTWORKS FOR WINDOWS

k. Type in the following for the description of the plotter driver you are installing and click **Next**:

A&E HP650C (C2859B) (optimized)
or **A&E HP600 E A/O (optimized)**

l. When prompted, select **Not Shared** and click **Next**.
m. Finally, select **No** for printing a test page and click **Finish**.
